“The first thing I did when I got word that [my daughter] was in the hospital was contact P5’s Case Management services. I knew it would be complicated dealing with a foreign country, and I am so grateful that I had [P5’s Case Management] service[s] to rely upon. I really do believe having this benefit in my medical plan **saved my daughter’s life**”

“Since October 2002, I have had the privilege of working closely with P5. I [am] impressed with the facilities and the people there. I met [their] nurses who are experts in diabetes, CHF, other heart conditions, and even the Cradle Club, a favorite among new moms. P5 is ‘keeping their eye on the ball in terms of helping clients with **the biggest cost savings** of all.”
